MEMORANDUM FOR: Chief, Theater Forces Division, OSR

ATTENTION: [Redacted]

THROUGH: Chief, Requirements Branch, Reconnaissance Group, IRS

SUBJECT: Search of Chinese Rail Net for Indications
of MRBM Activity

REFERENCE: CIA Requirement C-RR7-84,470 - Suppl 1
(NPIC Project 111052EB)

25X1A

1. This memorandum is in response to your standing requirement which requests a search along the Chinese rail net for indications of MRBM site construction, new rail spurs, or major construction activity.

2. It should be kept in mind that in order to recognize an MRBM launch site, fixed field site, or associated logistical support facility, construction on the installation would have had to progress to the point where it displayed a signature somewhat similar to that of known sites or, if different, some feature that can be definitely associated with missile launching or support.

25X1D

3. Pertinent photography from Mission [Redacted] [Redacted] was searched and those portions of the rail net that could be negated for suspect activity are shown on an overlay (see attachment).
